A: In the year 2020 (that is, probably during 2019), Hatoful Boyfriend became the first anime to be officially translated into English for the PlayStation 4, leaving only a few fan-translations in progress for non-PlayStation platforms. In addition to that, the game has also been localized into several other languages including Spanish,

German, French and Japanese. Q: Solve a cubic equation: $6x^3+x-1=0$ Solve this cubic equation: $6x^3+x-1=0$ Now, this is what I've done so far. Substituted x as $a+b+c$ and then equated coefficients of different powers of x to zero.
$$\begin{aligned} c &= 0 \rightarrow a+b+c = 0 \rightarrow a-b = 1 \setminus b \\ &= 0 \rightarrow 2a + b = 0 \rightarrow a = -\frac{1}{2} \setminus a = -\frac{1}{2} \rightarrow a+b = \\ -\frac{1}{2} \rightarrow b &= \frac{1}{2} \end{aligned}$$
 Then, putting these values in the equation, we have: $b+b+2a+a+c = 0 \rightarrow 0+1+\frac{1}{2}-\frac{1}{2}+0 = 0 \rightarrow 0 = 0$ Clearly wrong. Help?

A: You're missing the constant term α in $x^3+\alpha x+\beta=0$. $(-4)/5$ D is for Dead #4 Drag Me Down #5 Dark Matter #6 At One #7 Nasty #8 Drag Me Down #9 Darkside #10 Rejected #11 Darkside #12 Dead And Gone #13 Dark Matter #14 At One #15 Drag Me Down #16 Yvette #17 Darkside #18 Dark Matter #19 At One #20 Dark Matter #21 Darkside #22 Dark Matter #23 Drag Me Down

Our dear Ema has sworn to become a success in the JPop industry. It's because she wants to get attention of her brother Shunsuke, whom she considers a brotherly friend. Ema, Shunsuke, and the whole JPop industry are all excited about an upcoming release of the Ema + Shunsuke. They all went to the newly created branch of Hinode High School to work on the manuscript. If there's anything you want to see in the movie, like Ema and Shunsuke's dates, fans, etc. just let me know! Thank you so much for reading! Currently I'm at the Hinode High school office working on the preproduction of the film. I'll keep you updated on my progress. Mar 21, 2018 At .
