About This Content

The M-2000C Red Flag Campaign is a story-driven campaign that takes place during an extraordinary Red Flag exercise at the Nevada Test and Training Range (NTTR). The campaign backstory revolves around growing hostilities between Iran and its neighbors and a partially successful coup that takes place in the United Arab Emirates, effectively splitting the country in two.

You will take on the role of a deputy commander of a 10-ship strong detachment of M-2000C interceptors from the 02.005 Fighter Squadron "Île-de-France". In preparation for war in the Persian Gulf, your detachment, and those from the United States, Germany, the United Kingdom, Poland and the Netherlands, will spend two weeks at the NTTR to hone your skills.

All of the missions are based on extensive research of actual Red Flag exercises and will each include interesting facts and stories from previous runnings of the exercise.

Features:

- 16 story-driven missions
- Over 3,000 voiceovers performed by more than 40 voice actors
- Returning characters from the M-2000C Caucasus campaign
- Highly detailed mission briefings, maps, and other documents that includes Air Tasking Orders and Data Sheets based on actual counterparts use by the US and French Air Forces

-
- Many of interesting background facts and stories from past Red Flag exercises
 - Preparation for upcoming DCS campaigns in the Persian Gulf

This campaign requires ownership of DCS: M-2000C, along with the DCS: NEVADA Test and Training Range map.

English

If it's by Baltic Dragon it's amazing, and this is no exception.

Extremely detailed, lots of fun voice acting. Great to see the AdA gang back from the main campaign.. Great addition to the Red Flag collection! Lots of voiceovers, good mission design, accuracy\realism where necessary and the designer (Baltic Dragon) is very helpful with issues. Can't wait to follow Lambert, Max & co to the Persian Gulf ;-). Excellent campaign. As always, Baltic Dragon did an amazing job!
